COMMERCIAL VEHICLE SERVICES MISSION

MISSION

Idaho's Commercial Vehicle Services staff is dedicated to providing our customers with excellent service and treating them with professionalism, dignity, and respect. Our goal is to reflect this spirit of service and professionalism in everything we do for you. Our personnel are some of the best in the business and we hope that you enjoy every contact with them. If you have suggestions for ways to improve any of our services or if you are unhappy with the service you received from any Commercial Vehicle Service locations, we would like to hear from you.

The Division of Motor Vehicles will continue to search for ways to:

- ◆ Provide more flexible and responsive service
- ◆ Meet the public's mobility needs

GENERAL INFORMATION

The Division of Motor Vehicles is one division within the Idaho Transportation Department.

The Commercial Vehicle Services Section is within that division and consists of the following units:

- Ports of Entry - They are located statewide and are comprised of uniformed officers who have a limited law enforcement commission for commercial vehicle enforcement. The ports of entry are responsible for the operation of Idaho's fixed weigh station facilities (refer to Pages 63-68 for locations) and for roving ports of entry that set up on secondary and bypass routes utilizing portable weigh scales. They issue temporary permits for vehicles not registered for Idaho and temporary weight increase permits for vehicles that are currently registered for Idaho, but need to increase that registration. Most ports of entry are able to issue Full Fee registrations and annual overlegal permits.
- Permits - A centralized unit located in Boise which approves or denies the issuance of permits for vehicles and/or loads which exceed legal dimensions and weight. They also issue temporary permits for vehicles not registered for Idaho and vehicles that are registered for Idaho, but need to temporarily increase the registered weight. Temporary registration permits may be issued to residents and non-residents alike. Temporary weight increase permits may be issued to both resident and non-resident vehicles as long as they are currently registered for Idaho.
- Motor Carrier - A centralized unit located in Boise, which provides services for vehicle registrations, specifically the International Registration Plan (IRP) for interstate operations and Full Fee for intrastate operation, the International Fuel Tax Agreement (IFTA), Heavy Vehicle Use Tax (HVUT), federal authority for the Unified Carrier Registration (UCR), Hazardous materials vehicle endorsements, Hazardous Waste Permits and a variety of services for other agencies related to commercial vehicle registration.

TRUCKER'S CHECKLIST

While operating inside the state of Idaho, you, your vehicle, and its cargo must comply with Idaho law. Although federal law, the laws of other jurisdictions, and Idaho law appear to be the same, do not assume this is the case.

To assure compliance with the laws of the state of Idaho, consult the following “checklist,” reference the associated section of this handbook, or telephone the appropriate Idaho agency if additional detail is required. Idaho state offices are open from 7:30 a.m. until 5:00 p.m. Monday through Friday, except District One (Coeur d’Alene) and District Two (Lewiston) which are open from 7:00 a.m. until 4:00 p.m. Monday through Friday.

REQUIREMENTS FOR CONTRACTORS DOING BUSINESS IN IDAHO

Authority and Name

- DOT motor carrier information number required and placed on side of vehicles [Federal Motor Carrier Safety Requirements, aka FMCSR 390.21]

Insurance

- Current Liability Insurance for the vehicle and for the company [FMCSR part 387]
- UCR required

Vehicle Registrations

- Vehicles must be registered for Idaho when working in Idaho. If the Commercial Vehicle is over 10,000 pounds (as defined as a Commercial motor vehicle in FMCSR 390.5) and is in the state overnight in the furtherance of their business, it is then required to license or to purchase Idaho temporary registration permits. All other vehicles through 26,000 pounds will be granted free flow.
- Register trucks for actual combined vehicle weight of truck, trailer and load [Idaho Code 49-401A].
- Obtain all permits needed, including over size permits and hazardous materials endorsements for Idaho and, if needed, federal hazardous materials endorsements [Idaho Code 49-1004, 49-2202, and 49-2203].
- Obtain IFTA from your base state or an Idaho temporary fuel permit if the vehicle is registered for more than 26,001 pounds propelled by diesel, propane or compressed, liquefied or natural gas [Idaho Code 63-2438].

Stopping at the Ports of Entry [Idaho Code 40-511]:

- All vehicles, or combinations of vehicles, with an actual or declared maximum gross weight of 26,001 lbs. or more, and all vehicles hauling hazardous materials and livestock with an actual or declared maximum gross weight of 10,001 lbs. or more, must stop at and clear each “open” Idaho Port of Entry.

REQUIREMENTS FOR CONTRACTORS DOING BUSINESS IN IDAHO CONT

Drivers

- Have the correct driver's license for every driver [Idaho Code 49-301 and 49-105, FMCSR 383.3 and 383.23].
- Have the correct endorsements on the driver's license for every driver [Idaho Code 49-105 and FMCSR 383.93].
- Secure Medical Certificates for drivers of vehicles over 10,000 GVWR, GCWR, GVW, or GCW [FMCSR 391.41 and 390.5 for definitions].
- Log Books as required FMCSR 395.1, 395.3, and 395.8.
- Be at least 21 years of age if operating a commercial vehicle interstate [FMCSR 391.11(b)(1)].
- Read and speak English [FMCSR 391.11(b)(2)].

Safety Equipment (not all-inclusive) Comply with FMCSR part 393 and Idaho Code Title 49 for safety equipment:

- fire extinguisher and emergency triangles
- reflective tape on sides and rear of trailer load
- annual vehicle inspection
- emergency breakaway switch on trailer (if over 3,000 pounds) [FMCSR] and trailers or semitrailers of more than 1,500 pounds unladen weight [Idaho Code]
- license plate light (rear) proper load securement
- tires and wheels seat belt
- all lamps operable (day and night) horn
- brake lights turn signals
- lamp or flag on projecting load that extends to the rear 4 feet or more
- 3 identification lights (front and rear if over 80 inches)
- battery box covers
- mud flaps

ONLINE SERVICES

Many of the services provided by Commercial Vehicle Services are available online.

To access the Internet online services, log on to dmvonline.idaho.gov or trucking.idaho.gov

If you need help navigating through the Internet screens, use the step-by-step instruction guide provided by the Motor Carrier unit or you may call the Commercial Vehicle Internet help line at 208-334-8255.

The following services are available online:

Annual Overlegal Permits	Full Fee Registration Renewals	IFTA (quarterly tax returns, decals, renewals)
Hazardous Materials Endorsements	Temporary Trip Permits (registration – when not registered) (increasing current registration to carry a higher legal weight limit for reducible loads)	IRP Registrations (MVS Express)
Drivers License Records	Drivers License Status Check (free)	Reinstatement Fee Payment (suspended drivers)

TRUCK CLEARANCE PROCESS

All vehicles, or combinations of vehicles, with a maximum gross weight or registered gross weight, or operated at a gross weight of 26,001 lbs. or more, and all vehicles hauling hazardous materials and livestock with a maximum gross weight of 10,001 lbs. or more, must stop at and clear each “open” Idaho Port of Entry. Loaded vehicles will proceed to the scales for weighing (see Pages 13-18 for weight limits).

Vehicles may be required to have their weight verified on the scale. Follow the directions on the posted signs and traffic signals at each Port of Entry.

Truckers who do not have Idaho permits or licenses, or who are found to be in violation, will be directed to park their vehicles outside the scale lane and return to the building. The Port of Entry Inspector will ask the driver to produce all appropriate licenses, permits, and other required paperwork.

Clearance procedures are as follows:

- ◆ Actual weight may be checked against the licensed weight of the vehicle. Axle, gross, and bridge weights will be monitored.
- ◆ Interstate trucks are required to display IFTA credentials or purchase a temporary fuel permit.
- ◆ It is a violation of federal and state law to have dyed fuel in the supply tank of a vehicle. All diesel-powered vehicles are subject to fuel sampling.
- ◆ Vehicles and drivers are subject to random equipment and logbook checks. Vehicles and/or operators found with a parked for repair violation (see Page 21) will be parked for repair.

WHAT IS A TRANSPONDER AND HOW CAN I GET ONE?

Why wait in line to get checked at a weigh station when these same checks can be done on the highway, without even slowing down?

Motor Carriers who participate in North American Preclearance and Safety System (NORPASS) are able to bypass weigh stations by electronically verifying a truck's legal weight, safety rating and credentials as the truck continues down the road at freeway speeds. If all is in order, they get a green light signal in the cab, and they just keep going. No more rolling up the ramp: no more waiting in line or wasted time.

NORPASS, Inc. is a not-for-profit partnership of state agencies and the motor carrier industry dedicated to promoting safe and efficient trucking throughout North America. To learn more on NORPASS please visit www.norpass.org.

There are no fees for participating in NORPASS. This means no annual fees; no fees for green lights; no fee ever.

Carriers who register in NORPASS receive a small transponder to mount on the windshield of the truck. As the truck approaches a NORPASS weigh station, a roadside reader reads the transponder. A computer at the weigh station looks up the truck and makes sure the credentials are okay.

Weigh-In-Motion equipment verifies that the truck's weight is within legal limits and if everything checks out okay, a second roadside reader will send a "bypass" message to the transponder and the transponder will give a green light signal to the driver. A green light means the driver can bypass the weigh station. If a problem is detected, the transponder will give the driver a red light signal. That indicates that the driver must pull through the weigh station.

The system also has a random sampling feature, so any participating truck can expect to receive an occasional red light.

WHAT IS A TRANSPONDER AND HOW CAN I GET ONE? CONT.

Alaska, British Columbia, Connecticut, Idaho (East Boise & Lewiston Ports of Entry), Kentucky, New York, Quebec, South Dakota and Washington are members of the NORPASS partnership. NORPASS transponders are compatible with the Oregon Green Light Program, PREPASS (www.prepass.com) and BEST PASS Program (www.bestpass.org). Oregon Green Light Program and Best Pass transponders allow NORPASS states to use their transponders in the NORPASS system.

The following options are available to obtain a transponder:

- For Idaho intra-state operators only, contact Renee' Becker at 208-334-8688 or IdahoTransponder@itd.idaho.gov to obtain an application.
- For interstate operators that regularly stop at Oregon weigh stations contact www.oregon.gov/ODOT/MCT/GREEN.shtml
- All others please contact the NORPASS Western Service Center at 1-888-877-8567 or www.civisn.wsdot.wa.gov.

This "Telematics" version is currently being issued by Idaho.

This "Mark IV" version is currently in use in many vehicles but is no longer being issued by Idaho.

WEIGHTS AND DIMENSIONS

Legal Dimensions (NOTE: See OVERLEGAL PERMIT CONDITIONS MANUAL, for vehicles exceeding legal dimensions.)

Width	8 ft. 6 in.
Height	14 ft.
Length	
Single Motor Vehicle	45 ft
Trailer or Semitrailer (<i>other than National Network</i>)	48 ft.
Trailer or Semitrailer (<i>National Network</i>)	53 ft.
Motor Vehicle and One or More Trailers (<i>except as noted</i>)	75 ft.
Double Trailers (<i>other than National Network</i>)	61 ft. of trailers or 75 ft. overall
Double Trailers (<i>National Network</i>)	68 ft. of trailers
Dromedary Tractor (<i>Stinger Steered</i>)	75 ft.
Dromedary Tractor (<i>Non-stinger Steered</i>)	65 ft.
Auto or Boat Transporter (<i>Stinger Steered</i>)	75 ft.
Auto or Boat Transporter (<i>Non-stinger Steered</i>)	65 ft.
Saddlemount Combinations (<i>National Network</i>)	97 ft.
Saddlemount Combinations (<i>other than National Network</i>)	75 ft.
Overhang	
Front of Vehicle	4 ft.
From the End of the Vehicle	10 ft.
Combined Front and Rear Overhang of Auto or Boat Transporter	7 ft.

HOW TO DETERMINE ALLOWABLE WEIGHT

Gross weight is determined by using the Federal Bridge Formula, but with some limits. (A chart of the Bridge Formula is included in this section beginning on Page 14). The total gross weight allowed under the Bridge Formula is 105,500 lbs., but the weight must be distributed on all axles so that no single axle exceeds 20,000 lbs., no tandem axle exceeds its allowed weight or groups of axles (inner bridges) exceed their allowed weight.

The maximum weight limits are:

Steer Axle The weight of the steer axle is determined by the manufacturer's description of the width of tire, which is marked on the sidewall of the tire and shall not exceed the manufacturer's load rating, whichever is less. The maximum allowable load for any vehicle tire operated on the highway shall not exceed 600 lbs. per inch width of tire, except tires on vehicles manufactured prior to July 1, 1987, which shall not exceed 800 lbs. per inch width of tire. Pounds per inch width of tire can never be used to exceed legal axle weight.

Single Axle 20,000 lbs.

Tandem Axles 34,000 lbs. (Federal Interstate System) (see bridge formula 49-1001(1))
37,800 lbs. (When Gross Weight does not exceed 79,000 lbs with exempt commodities – logs, pulpwood, stull, poles or piling; ores, concentrates, sand & gravel, and aggregates thereof, in bulk; unprocessed agricultural products, including livestock.) (see bridge formula 49-1001(2))
37,800 lbs. (Non-Interstate System, gross weight does not exceed 80,000 lbs.) (see bridge formula 49-1001(9))

Maximum Weight Without Permit On Interstate Highways **80,000 lbs.**

Maximum weight With Permit On Interstate Highways **105,500 lbs. (reducible loads only)**

Maximum Weight on Secondary Highways (no permit required) **105,500 lbs. (reducible loads only)**

Bridge Formula Chart 49-1001(1) - Interstate

SEASONAL WEIGHT RESTRICTIONS

During the spring, when warmer temperatures cause the road surface to break up and generally deteriorate, the highways most affected are restricted to lower axle weights and speed restrictions. Signs indicating that a road is posted for lower weights are erected at the beginning of a posted road. Signs will indicate the legal weight allowed.

For information on legal weights for posted roads or to check on a route of travel, contact any Idaho Port of Entry or the Permit Office. A list of Ports of Entry locations and telephone numbers are located on Pages 65-70.

Idaho Load and Speed Restriction information can be viewed at 511.Idaho.gov.

It is important for the trucking industry to cooperate and comply with the load and speed limits. If compliance with the load and speed limits are adhered to, the need for future, more restrictive, limits may be alleviated. Excessive violations may lead to implementation of more restrictive limits.

Idaho does have a chain law, which can be found in Idaho Code, section 49-948. It currently only applies to the following passes in Idaho, Lolo on US12, Look Out and 4th of July on I90.

WEIGHT TOLERANCES

The Surface Transportation Assistance Act of 1982 mandates all states to allow 80,000 lbs. gross weight, 34,000-lb. tandem axle weight, and 20,000-lb. single axle weight, inclusive of all law enforcement tolerances.

THERE ARE NO ENFORCEMENT TOLERANCES.

WEIGHT ENFORCEMENT GUIDELINES

All violators found exceeding legal weight laws by any amount shall be advised and appropriate compliance action taken.

Issuance of Travel Authorizations

Vehicles, which exceed legal maximum weight by 2,000 lbs. on a single axle or 7% on any combination of axles, will be required to either purchase a travel authorization or offload to another vehicle at the point of contact. Vehicles, which exceed legal maximum weight by 15% on any single axle or combination of axles, are required to offload all excess commodities at the point of contact. No cargo can be unloaded onto Ports of Entry property or highway right-of-way.

OUT-OF-SERVICE/PARKED FOR REPAIR CRITERIA

The Idaho State Police Commercial Vehicle Safety Unit and Ports of Entry Inspectors work jointly and are trained to perform inspections of vehicles and equipment, and to check drivers' credentials. While you are stopped at a Port of Entry or roadside inspection site, your vehicle may receive a safety inspection. Brakes, tires, exhaust systems, coupling devices and turn signals are some, but not all, of the equipment which must meet requirements of the North American Driver/Vehicle Inspection Criteria established by the Commercial Vehicle Safety Alliance (CVSA). These regulations also apply to the truck driver. Some of the requirements for the driver include a Commercial Driver's License (CDL), medical certificate, and a record of hours worked (logbook). If the equipment (or driver) fails to meet the requirements of the Out-of-Service/Parked for Repair Criteria, the vehicle shall not proceed until the requirements have been met. A citation may also be issued.

Contact Driver Services at (208) 334-8736 for Commercial Driver's License information.

Contact Idaho State Police Commercial Vehicle Safety at (208) 884-7220 for logbook and medical requirements and driver safety information or visit their website at isp.state.id.us

SAFETY

Regulations governing equipment, cargo handling, driver qualification, daily log requirements, and limitations on drivers' working hours must be followed. In addition, there are regulations on reporting accidents, inspection and maintenance (including annual/periodic inspections), and transporting hazardous materials. The driver and carrier should be aware of and comply with the regulations found in the Federal Motor Carrier Safety and Hazardous Materials Regulations, which is adhered to by Idaho.

Safety Inspections

CVSA safety inspections are performed by Idaho State Police/Commercial Vehicle Safety and safety inspections of a lesser degree are performed by Ports of Entry personnel on the roadside and at ports of entry.

A copy of the regulations can be obtained from:

Idaho Trucking Association P.O. Box 4549 Boise, ID 83711 Telephone: (208) 342-3521 idtrucking.org	or	Superintendent of Documents U.S. Government Printing Office Washington, D.C. 20402	or	Federal Motor Carrier Safety Admin www.fmcsa.dot.gov
--	-----------	---	-----------	---

DRIVER QUALIFICATIONS

Minimum Qualifications

A driver must:

- ◆ be at least 18 years old; 21 years old if driving interstate; and
- ◆ have a valid Commercial Driver's License (Class A, B or C) or a valid Class D Driver's License, depending on the size of the vehicle and types of loads being hauled. Endorsements may be required.

A driver may have to meet other requirements, such as medical certificate of health (DOT medical card), drug and alcohol testing, etc., depending on types of loads being hauled or whether the driver is traveling interstate or intrastate.

Commercial Driver's License (CDL)

A CDL is required if you operate a:

- ◆ combination vehicle with a manufacturer's gross combination weight rating (GCWR) of 26,001 lbs. or more, provided that the manufacturer's gross vehicle weight rating (GVWR) of the towed unit is greater than 10,000 lbs.;
- ◆ single vehicle with a GVWR of 26,001 lbs. or more;
- ◆ vehicle designed to transport 16 or more persons (including the driver);
- ◆ vehicle of any size carrying hazardous materials in quantities large enough to require placards.

DRIVER QUALIFICATIONS CONTINUED

A Class D Driver's License is required for all other vehicles.

CDL Exemptions

Those exempted from CDL requirements may include drivers of recreational, military, and emergency vehicles; and some farm vehicles not used for hire if driven within 150 air-miles of the farm.

CDL Tests

Drivers must pass written and skills (vehicle inspection, basic control skills, and driving) tests.

CDL Endorsements/Restrictions

CDL endorsements are based on vehicle types or the types of loads being transported: double/triple trailers, hazardous materials, tank vehicles, buses and school buses. Your license will have a restriction for driving only vehicles without air brakes unless you pass an airbrakes exam and skills test in a vehicle equipped with air brakes.

For more information: itd.idaho.gov/dmv/driverservices/cdl.htm

DYED FUEL

Colored or dyed diesel fuel is fuel that has not been taxed as a motor fuel. When you fill your truck at a truck stop or service station, the fees charged at the pump include both federal and state tax.

Diesel fuel, which is supplied for use in construction equipment, farm machinery, and other equipment that is not designed for highway transport, is dyed to indicate that no taxes have been paid on the fuel. Some exceptions allow equipment that is used on a construction site or farm machinery to operate with dyed fuel. This equipment is called “special mobile” equipment or “SM” equipment. Dyed fuel can also be used for home heating, and small equipment such as welders and refrigeration units on “reefer” trailers.

The Internal Revenue Service (IRS) conducts random sampling of fuel tanks as part of the truck checks conducted at Ports of Entry and on the open road. When a sample of fuel is found to be not clear or is obviously dyed, the officer may issue a citation for illegally using dyed (untaxed) fuel.

If you have questions about the dyed fuel program, you may contact any IRS office.

REGISTRATION

County Assessors register:

- ♦ Idaho based commercial vehicles of 26,000 lbs. or less gross weight that operate intrastate within Idaho; and
- ♦ Idaho based farm vehicles of 60,000 lbs. or less gross weight; and
- ♦ Idaho based commercial vehicles up to 60,000 pounds.

The Idaho Transportation Department, Motor Carrier Unit, 3311 W. State St., Boise, ID 83703 registers:

- ♦ commercial vehicles over 8,000 lbs.; and
- ♦ farm vehicles over 60,000 lbs.
- ♦ overlegal permit(s) may be required when a vehicle hauling reducible loads exceeds 80,000 pounds on the interstate or a vehicle and/or load that is non-reducible exceeds legal axle weights or 80,000 pounds. All vehicles and/or loads exceeding the legal width, height and length limits listed in Idaho Code 49-1010 may also require overlegal permits. Contact Permit Office at 1-800-662-7133 (in Idaho only) or 208-334-8420 for overlegal permit requirements for your specific operations.

Idaho Full Fee

Full Fee is a motor carrier registration & license for which Idaho's "full" registration fees are charged, on a January-through-December basis, in accordance with Idaho Code 49-434. Fees are reduced by 1/12 monthly for power units licensed later in the calendar year. Full Fee registration fees for vehicles over 60,000 lbs are based on the per-vehicle mileage for the preceding July 1st through June 30th.

Non-Idaho-based carriers may choose to fully register vehicles based in other jurisdictions to operate in Idaho if they are not eligible for other types of licensing and/or they do not want to purchase temporary permits.

Idaho farm vehicles 60,000 lbs. or less must be licensed at the county assessor's office. Idaho farm vehicles over 60,000 lbs. must be licensed through the CVS/Motor Carrier Unit.

Submitting Paperwork

Applications to register newly-acquired vehicles can be completed at a Port of Entry, at the county licensing office in Salmon and Council, or they may be mailed, faxed or brought to the Motor Carrier Unit Counter.

Be sure to submit all applicable paperwork, which may include the following:

- Application for Registration or change request.
- Copy of title or title application for newly-acquired vehicles. In most cases, vehicles can be issued a Temporary Vehicle Clearance with a Bill of Sale if the title paperwork cannot be processed immediately.
- Federal Heavy Vehicle Use Tax (HVUT) form if in the taxable category. (Checks must be payable to “U.S. Treasury.”)
- Submit fees with the application forms. You may call to find out the total amount due. Do not combine registration fees with fees for any other agency or for another account number.
- Form E Insurance Certificate must be on file with Motor Carrier for carriers hauling intrastate, for-hire, non-exempt commodities.

Mileage Requirements

When licensing Full Fee power units over 60,000 pounds, the registration fees are based on mileage driven during the preceding July 1 through June 30 mileage period.

If the vehicle had actual mileage at any time during the preceding July 1 through June 30 period, that mileage must be declared.

If the vehicle did not have actual mileage anytime during the preceding July 1 through June 30 period, mileage may be estimated according to the Full Fee Mileage Guidelines.

REGISTRATION CONTINUED

Renewals

Courtesy renewal notices are mailed around the 1st of October to allow plenty of renewal time prior to the December 31st expiration. The best way to renew is online. If renewing by mail, the renewals should be returned with payment of fees and other required paperwork by the date indicated in the packet.

Read the renewal instructions and use the checklist to be sure paperwork can be processed the first time through. Call our office if you have any questions. Extensions and Temporary Vehicle Clearances are not issued on renewal registrations, unless using the online renewal program, then TVC's can be issued.

On-Line Renewals

The Motor Carrier Unit has Internet renewal service for Full Fee vehicles. With this service, vehicles can be renewed quickly and easily and payment can be made by credit card, virtual check, or by setting up a subscriber account with Access Idaho. Identification for vehicles renewed over the Internet will be mailed by the Motor Carrier Unit within a few days of the transaction.

If a Full Fee vehicle is expired or close to expiration, a Temporary Vehicle Clearance (TVC) may be printed out at no charge while renewing over the Internet. The TVC can be printed on your local printer for immediate operation. The no fee TVC is only available to vehicles being renewed online.

To renew vehicles over 54,000 pounds online, proof of payment or filing of the Federal Form 2290, Heavy Vehicle Use Tax must be provided to the Motor Carrier Unit ahead of time.

REGISTRATION CONTINUED

Trailers

There are three (3) options for licensing trailers in Idaho. The Full Fee Application for Registration should be clearly marked to indicate the option that is chosen.

1. One-year annual. The registration expires December 31st each year.
2. One-year staggered. Carriers with IRP fleets may register their fully-licensed trailers with an annual expiration date that corresponds with their IRP fleet expiration date.
3. Permanent Trailer Plate.

Carriers choosing the permanent option pay the permanent registration fee (\$105.00, plus \$4.00 administrative fee and \$3.00 plate fee), and obtain a plate and registration with no expiration. This omits the need to register the trailer each year. Validation stickers are not issued with the permanent plate.

Trailers operating in conjunction with IRP-registered power units must register under the Full Fee program.

Forms Required

A Full Fee Application for Registration should be filled out listing all vehicle information for each power unit and trailer to be licensed for Idaho only.

Changes to existing Full Fee registrations can be made through the mail by a written request, by phone request, or by fax and e-mail. Contact the Motor Carrier Unit if you need assistance in determining the correct fees before mailing.

REGISTRATION CONTINUED

Free Flow (Reciprocity) Agreements

Idaho has free-flow (reciprocity) agreements with several jurisdictions for qualifying farm vehicles. The terms “reciprocity” and “free flow” are often used synonymously. However, the IRP is a “reciprocity” agreement that does not necessarily constitute “free flow.” Idaho will allow qualifying farm vehicles from the states listed below to come into or pass thru Idaho without needing to fully or temporarily register. The other states will treat Idaho based qualifying farm vehicles in the same manner. All other fees and requirements (such as fuel permitting) are not waived.

- ♦ **Montana Agreement:** Montana **INTERSTATE** farm vehicles have registration free flow through 105,500 lbs Montana grants reciprocity to Idaho **INTERSTATE** farm vehicles regardless of weight
- ♦ **Oregon Agreement:** Oregon **INTERSTATE** farm vehicles have registration free flow through 105,500 lbs
Oregon **INTRASTATE** farm vehicles have registration free flow through 105,500 lbs but only within 50 miles of the Oregon/Idaho Border

NOTE: Idaho farmers operating in Oregon must provide an annual “Farm” certification for an exemption from weight distance taxes.

- ♦ **Utah Agreement:** Utah **INTERSTATE** farm vehicles have registration free flow through 80,000 lbs.
- ♦ **Washington Agreement:** Washington **INTERSTATE** farm vehicles have registration free flow through 105,500 lbs
Washington **INTRASTATE** farm vehicles have registration free flow through 105,500 lbs, but only within 50 miles of the Washington/Idaho Border

International Registration Plan (IRP)

IRP is a registration option for interstate operations (across the state line). This is a cooperative agreement that includes forty-eight states, ten Canadian provinces, and the District of Columbia. To establish an Idaho-based IRP fleet, you will need to provide the following information:

- Physical street address in Idaho. Post Office boxes may be used for the mailing address only.
- Proof the vehicle(s) are Idaho-based.
- Completed IRP Requirements form (required on all new and renewal applications).
- The jurisdictions for which you wish to register.
- Mileage for the requested jurisdictions – actual miles are required after the first year of operation for the ‘preceding year.’ If you were based in another jurisdiction, you must provide actual miles. Upon renewal, all second-year estimates will be computed over 100%.
- Complete vehicle information.
- Ownership documents for each vehicle. If the registrant is not the owner of the vehicle(s), a statement from the owner will be required granting permission to register.
- Registrants who have vehicles over 26,000 pounds, powered by special fuels (fuels other than gasoline), should apply for a fuel tax permit (IFTA) although trip permits for fuel can be purchased.
- Proof of payment or suspension of the Federal Heavy Vehicle Use Tax if in the taxable category.
- Registrants who plan to operate interstate, with vehicles over 10,000 pounds must apply for a USDOT number from the Federal Motor Carrier Safety Administration and then apply for the Unified Carrier Registration (UCR) at www.ucr.in.gov or through CVS – Motor Carrier Office.

Estimated miles are acceptable for jurisdictions not previously operated in if accompanied by a detailed explanation of how the estimated figures were calculated or you may use the Schedule G Mileage Chart. We cannot accept “zero” miles for a requested jurisdiction.

If you aren't sure you will travel in a jurisdiction or if you will only travel once or twice, it may be more economical to trip permit. Once you have registered for a jurisdiction it cannot be removed for that registration year. No refund is issued if you request a jurisdiction but do not operate there.

“Preceding year” means the period of twelve (12) consecutive months immediately prior to July 1 of the year immediately preceding the commencement of the registration or license year for which apportioned registration is sought.

Note: The above requirements are part of the IRP agreement and Idaho must comply.

Carriers may register for all IRP jurisdictions in which they travel and pay a portion of each jurisdiction's fees based on the miles traveled. Idaho collects and forwards the registration fees for each requested jurisdiction as listed on the Idaho cab card.

In some cases it may be necessary to obtain additional permits in member jurisdictions to meet requirements other than registration.

Other

If you cannot determine what type of registration you need, contact Motor Carrier for assistance.

For more information regarding registration, contact:

Idaho Transportation Department
Commercial Vehicle Services - Motor Carrier
3311 W. State St.
P.O. Box 7129
Boise, ID 83707-1129
Telephone: (208) 334-8611
Email: cvs@itd.idaho.gov

Temporary Permits

Temporary Permit for Registration - You may purchase a 120-hour temporary permit in lieu of fully registering the vehicle. 120-hour temporary permits may be purchased at ports of entry, vendor stations, Motor Carrier Unit or online at dmvonline.idaho.gov or trucking.idaho.gov, but must be purchased before movement on the highway occurs for unlicensed vehicles.

The cost of the 120-hour temporary permit is \$60 for a single vehicle and \$120 for a combination vehicle. An additional \$60 is charged to any non-Idaho-based vehicle with a registered or actual weight over 26,000 lbs. operating on diesel fuel, unless IFTA qualified.

Temporary Permit to Increase Registered Gross Weight – You may purchase a temporary permit to operate a vehicle or combination of vehicles hauling reducible loads in excess of the current registered gross vehicle weight up to 105,500 lbs. These permits must be obtained prior to movement on the highways. Those vehicles in excess of 80,000 pounds on the interstate must also purchase an excess weight permit.

The cost and duration of the temporary permit to increase gross registered weight are as follows: 120-hour permit is \$50
The 30 day permit is:

Maximum registered gross weight of vehicle in lbs	Temporary permitted maximum gross weight in lbs			
	80,000	86,000	96,000	106,000
50,001 – 60,000	\$225	\$250	\$275	\$300
Vehicles registered for more than 60,000 lbs & Needing to temporarily increase their registered weight May not utilize the 30 day permit, but can purchase the 120 hour \$50 permit for as many 120 hour periods as Needed up to a maximum of 90 days.				

Commercial vehicles over 10,000 pounds (as defined in FMCSR 390.5) that are in the state overnight in the furtherance of their business are required to license or purchase temporary permits. All other vehicles through 26,000 pounds are granted free flow.

390.5 Commercial Motor Vehicle means any self-propelled or towed motor vehicle used on a highway in interstate commerce to transport passengers or property when the vehicle –

- (1) Has a gross vehicle weight rating or gross combination weight rating or gross vehicle weight or gross combination weight, of 4,536 kg (10,001 pounds) or more, whichever is greater; or
- (2) Is designed or used to transport more than 8 passengers (including the driver) for compensation; or
- (3) Is designed or used to transport more than 15 passengers, including the driver, and is not used to transport passengers for compensation; or
- (4) Is used in transporting material found by the Secretary of Transportation to be hazardous under 49 U.S.C. 5103 and transported in a quantity requiring placarding under regulations prescribed by the Secretary under 49 CFR, subtitle B, chapter I, subchapter C.

For more information regarding temporary permits, contact:

HQ Commercial Vehicle Services
P.O. Box 7129
Boise, ID 83707-1129
Telephone: (208) 334-8420
TTD/TTY (208) 334-4458**

Licensing Prerequisites

Titles

All Idaho-based vehicles are required to be titled in Idaho. The name on the title will appear in the owner field on the cab card.

Owner/operators based in other jurisdictions that lease their vehicle, with driver, to an Idaho-based motor carrier and register under the motor carrier's name, are not required to title in Idaho. Owner/operators based in Idaho must title their vehicle in Idaho regardless of who provides registration, but do not have to indicate the lessor on the title.

With a proof of ownership (bill of sale dated within the last 30 days), the Motor Carrier Unit will issue a Temporary Vehicle Clearance (TVC) valid for 45 days or until the end of the registration year (if less than 45 days) in lieu of a registration. License plates cannot be released until proof of Idaho title application is submitted for Idaho-based vehicles.

Use Fee Reporting for Annual Permitted Non-Reducible Vehicles and/or Loads

Annual Non-Reducible permit customers will be issued quarterly statements every three months. You only report your laden miles on the non-reducible quarterly statements.

For more information regarding quarterly statements for annual non-reducible permit customers, contact:

**Idaho Transportation Department
Revenue Operations
3311 W. State St.
P.O. Box
Boise, ID 83707-1129
Telephone: (208) 334-8770**

Special Fuel Requirements

Idaho is a member of the International Fuel Tax Agreement (IFTA). All interstate carriers operating vehicles in excess of 26,000 lbs. GVW and powered by diesel, propane or natural gas must obtain an IFTA license and decals or purchase temporary trip permits for fuel tax purposes.

An IFTA license issued by any IFTA member fulfills a vehicle's fuel tax requirements in any other member jurisdiction. Idaho based carriers with vehicles based in other jurisdictions must purchase an Idaho IFTA or provide a "consolidation letter" from their base jurisdiction.

A copy of the IFTA license (cab card) must be kept in each vehicle. One decal must be displayed on each side of the lower rear exterior of the cab (two decals per vehicle).

For more information regarding special fuel requirements, contact:

Idaho State Tax Commission
Fuel Tax Section
P.O. Box 36
Boise, ID 83722
Telephone: (208) 334-8692
<http://tax.idaho.gov>

Heavy Vehicle Use Tax

The Internal Revenue Service (IRS) has assessed the Federal Heavy Vehicle Use Tax (HVUT) since 1954. The tax dollars collected are used to fund construction and maintenance of public roads.

Vehicles 55,000 lbs. or more gross weight operated on public highways are required to file form 2290 *Heavy Vehicle Use Tax Return*. The tax period begins on July 1 and ends the following June 30. The return is due by the last day of the month following the vehicle's first taxable use in the tax period.

The tax is suspended for vehicles used on public highways 5,000 miles or less (7,500 miles or less for agricultural vehicles) during a tax period. The owner of vehicles suspended under the mileage limitation still must file the tax return annually.

Federal law requires that the Idaho Transportation Department and county licensing offices see proof of filing of the HVUT before registering Idaho-based vehicles with gross weights of 55,000 lbs. or more. A copy of form 2290 is considered acceptable proof of payment of HVUT*, if the form is stamped by the IRS verifying the filing, or is accompanied by a copy of the front and back of the canceled check covering payment of the HVUT. If no tax was due to the IRS, then the properly completed and receipted Form 2290 is required. The Form 2290 must be stamped by the IRS, must be for the correct tax year, and must list the complete vehicle identification number (VIN) of the vehicle being registered. Federal law allows no exceptions to this requirement. The Form 2290 and the payment due if any, may also be filed with the Motor Carrier Unit for forwarding to the IRS.

If you are licensing a newly-purchased vehicle for the first time, contact the Motor Carrier Unit or a port of entry. You may qualify for a grace period on your tax payment.

*If you file electronically, a copy of the Form 2290, Schedule 1 with the E-File watermark is required. The IRS requires filings of 25 or more vehicles to be submitted online only.

For more information regarding Heavy Vehicle Use Tax, contact:

**Internal Revenue Service
Taxpayer Assistance
1-800-829-1040; or
Contact your local IRS office in
Boise, Idaho Falls, or Pocatello.**

HAZARDOUS MATERIALS

Hazardous materials are useful products that, when transported, pose a significant risk to health, safety, or property because they are flammable, toxic, corrosive, or have other dangerous properties.

Hazardous wastes are legally defined by an act of Congress as products that are either “listed” or meet the criteria of ignitability, corrosivity, reactivity, or EP toxicity, and no longer have a use. When transported, hazardous wastes must be accompanied by a hazardous waste manifest.

If you are hauling hazardous materials, you must comply with the Federal Motor Carrier Safety Regulations pertaining to hazardous materials transport. These are found in the Federal Motor Carrier Safety Regulations, Part 390 through Part 397.

Idaho Hazardous Material Endorsements and Hazardous Waste Permits:

Depending on the type and quantity of your cargo, a permit and/or an endorsement may be required. Title 49 of the Code of Federal Regulations outlines the regulated materials and quantities of each material requiring a manifest, a placard, and/or reportable quantity (RQ) designator. These same guidelines determine when an Idaho permit or endorsement will be needed. A good rule of thumb is this: If your cargo requires a federal placard, manifest, or special RQ designation on shipping papers, you will need an Idaho permit and/or endorsement. See chart on next page:

If you transport:

Hazardous wastes requiring placards under 49 CFR*, Part 171 - 172

Hazardous wastes requiring manifests under 40 CFR, Part 262

Hazardous materials regulated under 49 CFR, Part 171 -172

Hazardous substances regulated by 49 CFR, Part 171, and the appendix to § 172.101, and identified by “RQ” designation on shipping papers

Waste PCBs regulated by 40 CFR, Part 761 (greater than 50 parts per million)

Any waste PCB material which is accompanied by a uniform hazardous waste manifest

*Code of Federal Regulation

Then you need:

**Hazardous Materials
Endorsement**

**Hazardous Materials
Endorsement**

**Hazardous Materials
Endorsement**

**Hazardous Materials
Endorsement**

Hazardous Waste Permit

Hazardous Waste Permit

Hazardous Waste Permit

Hazardous Waste Permit

Hazardous Materials Endorsements should be obtained online at dmvonline.idaho.gov

Hazardous Waste Permits can be obtained from Commercial Vehicle Services, Motor Carrier.

For more information regarding hazardous material regulations and/or to receive out-of-service criteria, contact:

Idaho State Police/Commercial Vehicle Safety

or Federal Department of Transportation

P.O. Box

Telephone: (503)326-4902

Meridian, ID 83680-0700

Telephone: (208) 884-7220

FEDERAL OPERATING AUTHORITY

Operating authority is an authorization for a carrier to transport regulated commodities or passengers for compensation.

The Federal Motor Carrier Safety Administration (FMCSA) grants operating authority if the transportation is performed in interstate regulated commerce. Carriers are required to register this authority through their base state.

Interstate transportation is defined as:

- ♦ hauling commodities across state lines; or
- ♦ within a single state when the transportation is part of an interstate or international shipment; or
- ♦ between the United States and other countries.

Intrastate transportation is generally defined as traffic which moves within one state only and is not a unified part of an interstate or international shipment.

DOT NUMBERS

Number issued by the Federal Motor Carrier Safety Administration (for interstate carriers) or the Idaho State Police, Commercial Vehicle Safety Office (for intrastate carriers). This number is used for purposes of tracking safety and vehicle inspections. It is generally issued to interstate carriers with vehicles over 10,000 pounds, and intrastate carriers over 26,000 pounds, with some exceptions.

The Idaho State Police (ISP) grants operating authority if the transportation is performed in intrastate regulated commerce.

For more information regarding operating authority, DOT numbers or insurance requirements, contact:

Idaho State Police/Commercial Vehicle Safety
P.O. Box 700
Boise, ID 83680-0700
Telephone: (208) 884-7220

or

Federal Motor Carrier Safety Administration
3050 Lake Harbor Lane, Suite 126
Boise, ID 83702
Telephone: (208) 334-1842

IDAHO TRANSPORTATION DEPARTMENT/INSURANCE REQUIREMENTS

Motor Vehicle Registration/Insurance

Insurance Requirements

Insurance and Safety Fees (INS): For hire carriers of property or passengers operating intrastate (point to point within Idaho) will pay the INS fees in conjunction with their motor vehicle registration as follows:

- INS fee of \$2.00 for private carriers is paid per motor vehicle hauling non-exempt commodities owned by the registrant of the vehicle.
- INS fee of \$2.00 is paid per motor vehicle hauling non-exempt commodities or passengers for hire as a Common/Contract Carrier.

Idaho Code requires every motor vehicle that is operated on public highways to be continuously insured or the owner must post an indemnity bond with Idaho. A copy of proof of insurance or the indemnity bond must be carried in the vehicle.

Insurance requirements vary depending on the following:

- ◆ the commodity being transported;
- ◆ carrier type;
- ◆ the size of the vehicle; and
- ◆ whether the vehicle travels interstate or intrastate.

Unified Carrier Registration (UCR)

The UCR program replaced the Single State Registration System (SSRS) program effective January 1, 2007. This federally mandated program requires registrants with vehicles over 10,000 pounds, operating interstate, to register their federal authority with their base state. It also includes freight forwarders, brokers and leasing companies. A per-company annual fee is assessed based on the number of power units and trailers operating under the registrant's USDOT number. No credential is issued as enforcement will verify compliance via the federal database.

UCR requirements can be met by applying online through the national UCR system, www.ucr.in.gov. Payment can be made by credit card or electronic check. Registrants who do not apply online can mail the application and payment to Commercial Vehicles Services. CVS accepts MasterCard or VISA (include cardholder name, account number and expiration date) or check payable to "State of Idaho." All payment methods must be in U.S. funds.

For more information regarding UCR requirements or to obtain and submit the application for, contact:

Commercial Vehicle Services - Motor Carrier Registration
P.O. Box 7129
Boise, ID 83707-1129
Telephone: (208) 334-8611
email: cvs@itd.idaho.gov

OVERLEGAL PERMITS

Vehicles and/or loads exceeding the legal dimensions may be issued permits. The type of vehicle and/or load will determine what type of permit, if any, you must obtain. All overlegal permits (single trip or annual) must be ordered from the Centralized Headquarters Permit Office before moving on the highways.

All overdimensional and overweight permits have specific conditions that apply. Some, but not all, of these conditions include compliance with Federal Motor Carrier Safety Regulations, compliance with the laws of Idaho, and the Idaho Transportation Department Administrative Rules. Other regulations apply to a specific load or to specific types of loads or to a specific route. ITD Rules are contained in the maps that are required to be attached to Annual Idaho overlegal permits.

Types of Overlegal Permits

Non-Reducible Loads:

Overweight	A permit is required to exceed the legal axle weight(s) or gross weight allowed for a particular vehicle. All lift axles must be fully deployed when remaining axles exceed legal axle weights.
Oversize	A permit is required to exceed the legal dimensions established by law over Idaho highways.

Reducible Loads:

Excess Weight	A permit is required to exceed 80,000 lbs. on the interstate system (cannot exceed legal axle weight limits or maximum gross weight limit of 105,500 lbs.).
Excess Height	A permit is required to exceed a height of 14 ft. on routes designated for such operations up to a maximum height of 14 ft. 9 in.
Extra Length	A permit is required to exceed legal length limits (i.e. single trailers over 48 ft and double trailers exceeding 61 ft or 75 ft overall) on routes designated for such operations up to 90 ft or 115 ft.

Western Regional Single Trip Permits

Idaho has entered into an agreement with the states of Arizona, Colorado, Louisiana, Montana, Nevada, New Mexico, Oklahoma, Oregon, Texas, Utah, and Washington. This agreement authorizes the entry, origin, destination, or pass-through state to issue an overlegal permit, which is valid in all of the states that the load will be traveling through.

To obtain a regional permit you must not exceed the following requirements or dimensions:

- | | |
|---------------|---|
| Weight | <ul style="list-style-type: none">• 600 lbs. per inch of tire width• 21,500 lbs. per single axle• 43,000 lbs. per tandem axle• 53,000 lbs. per tridem axle (wheel base more than 8 ft., but less than 13 ft.)• 160,000 lbs. gross weight• In no case may the gross weight exceed the sum of the permitted axle, tandem axle, group axle weights, or the weight specified by the permit, whichever is less.• A minimum of five (5) axles is required for issuance of a Regional Overweight Permit. |
| Length | <ul style="list-style-type: none">• 110 ft. |
| Width | <ul style="list-style-type: none">• 14 ft. |
| Height | <ul style="list-style-type: none">• 14 ft. |

The oversize load must be non-reducible and it cannot be a manufactured home.

The western regional permit conditions page must accompany each permit.

GLOSSARY

APPLICATION FOR TITLE	Document that indicates a title has been applied for.
APPORTIONED	Synonymous with IRP (International Registration Plan). A Multi-jurisdictional reciprocity agreement for licensing vehicles operating in two (2) or more member jurisdictions.
BILL OF SALE	Document showing ownership of the vehicle has changed. A Bill of Sale must contain at a minimum, the name of the buyer, name of the seller, seller's signature, complete vehicle description (year, make, vehicle identification number), purchase price and purchase date of the vehicle.
BUS	A motor vehicle designed for carrying more than 10 passengers and used for the transportation of persons. "Bus" is defined in IRP as a motor vehicle designed for carrying more than 10 passengers and used for the transportation of persons. Motor bus carriers may declare mileage by using the total of all actual, in-jurisdiction miles, or by using a sum equal to the scheduled route miles per jurisdiction from the farthest point of origination to the farthest point of destination.
CAB CARD	A registration card or license issued to a vehicle and registrant which authorizes operation of the vehicle on the highways
CARRIER	An individual trucker or trucking company. (See <i>MOTOR CARRIER</i>)
COMBINATION OF VEHICLES	The truck tractor and one or more trailers or semi-trailers.
COMBINED GROSS VEHICLE WEIGHT	The total weight of the combination of vehicles and their load.
COMMERCIAL DRIVERS LICENSE	Any class A, Class B or Class C driver's license
COMMERCIAL VEHICLE	See vehicle.
COMMODITIES	Cargo hauled on a vehicle.

COMMON CARRIER	Any motor carrier which holds itself out to the general public to engage in the transportation by motor vehicle of passengers or property for compensation.
CONTRACT CARRIER	Any motor carrier transporting persons or property for compensation or hire under contract to a particular person, firm or corporation.
CREDENTIALS	Registration, plates, and stickers that validate a vehicle license.
DOT NUMBER	Number issued by the Federal Motor Carrier Safety Administration (for interstate carriers) or the Idaho State Police, Commercial Vehicle Safety Office (for intrastate carriers). This number is used for purposes of tracking safety and vehicle inspections. It is generally issued to interstate carriers with vehicles over 10,000 pounds and intrastate carriers with vehicles over 26,000 pounds, with some exceptions.
EIN	A nine-digit number assigned by the Internal Revenue Service to sole proprietors, corporations, partnerships, estates, trusts, and other entities for tax filing and reporting purposes.
EMS	Emergency Medical Service. The \$1.25 fee assessed to all full fee power units.
FACTORY PRICE	The manufacturer's retail price, excluding trade-in and sales tax, including accessories or modifications attached to the vehicle.
FARM VEHICLE	A vehicle or combination of vehicles owned by a farmer or rancher that is operated over public highways and used exclusively to transport unprocessed agricultural, dairy or livestock products raised, owned, and grown by the owner of the vehicle to market or place of storage; and includes the transportation by the farmer or rancher of equipment, supplies, or products purchased by that farmer or rancher for his own use.
FLEET	One or more apportionable vehicles. (for purposes of IRP, a fleet is determined by the jurisdictions for which a carrier's vehicles are registered.)
FOREIGN FULL FEE	Registration issued to vehicles based in jurisdictions other than Idaho which pay the full Idaho registration fees rather than permitting or apportioning.
FREE FLOW AGREEMENTS	Special agreements between jurisdictions, or parts of other agreements, that allow a vehicle to operate "free" of registration fees in the signatory jurisdictions, other than the base jurisdiction.
FUEL PERMIT	See IFTA.

FULL FEE	Type of registration program for vehicles registered for Idaho only.
FULL TRAILER	A vehicle without motive power designed for carrying persons or property, being drawn by a motor vehicle, and so constructed that no part of its weight rests upon the towing vehicle.
GCW	Gross Combined Weight – the weight of a combination of vehicles without load, plus the weight of any load on that combination.
GCWR	Gross Combined Weight Rating – the value as specified by the manufacturer as the maximum loaded weight of a combination (articulated) vehicle. In the absence of a value specified by the manufacturer, GCWR will be determined by adding the GVWR of the power unit and the total weight of the towed unit(s) and any load thereon or registered weight rating whichever is greater.
GVWR	Gross Vehicle Weight Rating is the manufacturer's assigned weight rating for the vehicle (truck/bus/trailer), not the vehicle's registered weight. On trucks, the GVWR is usually found on a metal plate inside the driver's door. On trailers, it may be anywhere, but is commonly found on the front of the trailer on the driver's side. For weight enforcement purposes, the actual weight of the vehicle with its current load will be used in place of GVWR.
GROSS WEIGHT	The weight of a vehicle or combination of vehicles plus the weight of any load thereon.
HAZARDOUS MATERIALS	Useful products which, because they are flammable, toxic, corrosive, explosive or have other dangerous properties, pose a significant risk to health, safety or property when transported.
HAZARDOUS WASTE	A material that is subject to Hazardous Waste manifest regulations of the EPA due to the type and quantity of the material.
HIGHWAY	The entire width between the boundary lines of every publicly maintained way when an part is open to the use of the public for vehicular travel, with jurisdiction extending to the adjacent property line, including sidewalks, shoulders, berms, and rights-of-way not intended for motorized traffic. The term street is interchangeable with highway.
HOUSEHOLD GOODS CARRIER	Carriers handling (1) personal effects and property or to be used in a dwelling; (2) furniture, fixtures, equipment, and the property of stores, offices, museums, institutions, hospitals or other establishments. "Household Goods Carriers" are defined in IRP as carriers handling (1) personal effects or property to be used in a dwelling; (2) furniture, fixtures, equipment, and the property of stores, offices, museums, institutions, including objects of art, displays and exhibits which because of

their unusual nature or value require the specialized handling and equipment usually employed in moving household goods; and shall include owned or leased equipment and their entire service representative family.

HVUT

Federal Heavy Vehicle Use Tax charged on vehicles 55,000 lbs. and over.

IDENTIFICATION

Term used to describe license plates, stickers, and registration.

IFTA

International Fuel Tax Agreement. Permits are issued to carriers operating in more than one IFTA jurisdiction.

INTERSTATE

A vehicle hauling commodities across state lines; or within a single state when the transportation is part of an interstate or international shipment; or between the United States and other countries.

INTRASTATE

A vehicle that is picking up a load within a jurisdiction and delivering it to another location within that jurisdiction or a vehicle that is working within a particular jurisdiction. A commercial vehicle over 10,000 pounds (as defined in FMCSR 390.5) in the state overnight in the furtherance of their business.

IRP

The International Registration Plan agreement.

JURISDICTION

A state, province, territory or foreign country.

LEASE

A written document vesting exclusive possession, control of and responsibility for the operation of the vehicle to the lessee for a specific period of time.

LESSOR

A person, firm or corporation which, under the terms of a lease, grants the legal right of possession, control of, and responsibility for the operations

MAXIMUM GROSS WEIGHT

The scale weight of a vehicle, equipped for operation, plus the maximum load to be carried as declared by the owner. The term “maximum gross weight” means the combined gross weights of all vehicles in the combination.

MOTOR CARRIER

An individual, partnership, corporation or other legal entity engaged in the transportation of persons or property in the furtherance of a business or for hire.

MOTOR CARRIER MC NUMBER

This is a 6 or 7 digit number issued to carriers who apply for interstate operating authority.

MEMBER

An International Registration Plan jurisdictional member.

JURISDICTION**MILEAGE**

As recorded from individual vehicle mileage records, a compilation of the actual operation of apportioned fleets of vehicles.

MOBILE HOME TOWER

Every motor vehicle designed and used for drawing manufactured homes and not so constructed as to carry any load thereon, or any part of the weight (except for the towing device) of any manufactured home so drawn.

MOTOR CARRIER

The Motor Carrier Unit licenses commercial & non commercial vehicles, issues IFTA permits, trip permits, hazardous materials endorsements, etc. This section is made up of three units: Full Fee, IRP, and Counter Operations.

MOTOR VEHICLE

Every vehicle which is self-propelled by power other than muscular power.

**NON-COMMERCIAL
VEHICLE**

Shall not include those vehicles required to be registered under Sections 49-402 and 49-402(a), Idaho Code, and means all other vehicles or combinations of vehicles which are not commercial or farm vehicles, but shall include those vehicles having a combined gross weight not in excess of 60,000 lbs. and not used in the furtherance of a business or occupation for compensation or profit or for transporting goods for other than the owner.

OWNER

Any person, firm or corporation, other than a lienholder, holding legal title to a vehicle.

POWER UNIT

Bus, Truck, Truck-Tractor, Road Tractor or Tractor.

POWER OF ATTORNEY

A legal document authorizing one person to act on behalf of another (certain restrictions may be identified).

PRECEDING YEAR

The period of twelve (12) consecutive months immediately prior to July 1 of the year immediately preceding the commencement of the registration or license year.

PRIVATE CARRIER

A person, firm or corporation which utilizes its own trucks to transport its own freight.

PROJECT CHOICE FEE

A \$3.00 fee collected on power units 60,000 lbs or less for the Department of Law Enforcement.

**PROPERLY
REGISTERED VEHICLE**

A vehicle which has been registered in full compliance with the laws of all jurisdictions in which it is intended to operate.

PROOF OF PURCHASE

Bill of sale, application of title, or title that identifies the new owner and the vehicle.

PURCHASE PRICE (VEHICLE)	For purposes of IRP registration, the actual purchase price, if reasonable, of a vehicle including the value of any trade-in or other valuable consideration, cost of accessories and modifications. Excluded are applicable federal excise taxes, state and local sales or use taxes, transportation or shipping costs, or preparatory or delivery costs.
RECIPROCITY	The reciprocal granting of rights and or privileges to vehicles properly registered under the IRP and to vehicles not so registered if such vehicles are subject to separate reciprocity agreements, arrangements, declarations or understandings.
REGISTERED MAXIMUM GROSS WEIGHT	The maximum gross weight on the registration as declared by the owner at the time of registration or renewal of registration
REGISTRATION CAB CARD	The registration certificate(s) and license plate(s) issued under the laws of Idaho pertaining to the registration of vehicles
REGISTRATION FEE	The total fee required under the laws of each jurisdiction for each vehicle at the regular annual or unexpired portion of the registration year.
ROAD TRACTOR	Every motor vehicle designed and used for drawing other vehicles and not so constructed as to carry any load thereon either independently or any part of a vehicle or load so drawn.
SEMITRAILER	A vehicle without motive power designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that some part of its load rests upon, or is carried by, the towing vehicle.
SPECIAL FUELS	Fuels other than gasoline.
TEMPORARY PERMIT	Is either a permit issued by a jurisdiction in lieu of regular registration or reciprocity or a permit to exceed the registered gross weight of the vehicle.
TITLE	Document issued to a vehicle to indicate ownership.
TRACTOR	Every motor vehicle designed and used primarily for drawing other vehicles, but not so constructed as to carry a load other than part of the weight of the vehicle and load so drawn.
TRAILER	Every vehicle without motive power designed to carry property or passengers and to be drawn by a motor vehicle.

TRUCK	Every motor vehicle exceeding 8,000 lbs gross weight, designed and used primarily for the transportation of property.
TRUCK TRACTOR	Every motor vehicle designed and used primarily for drawing other vehicles, and so constructed as to carry a load other than a part of the vehicle and load so drawn.
TVC	Temporary Vehicle Clearance authorizes operation of a vehicle for up to 45 days until registration and plates can be issued. (May be referred to in other jurisdictions as Temporary Authority – TA or Temporary Operating Authority – TOA.)
UCR	Unified Carrier Registration
UNLADEN WEIGHT	The weight of a vehicle fully equipped for service excluding the weight of any load.
USE FEE – ROAD USE FEES	Road use fees for vehicles moving non-reducible vehicles and/or loads are separate fees paid above and beyond the registration fees. The road use fees are collected on a single trip permit at the time it is issued/picked up. The road use fees for annual permits are reported (laden miles only) and paid on a statement quarterly.
UTILITY TRAILER	Trailer constructed for the purpose of carrying property and not to exceed 6,000 pounds declared gross vehicle weight.
VEHICLE	Every device in, upon or by which any person or property is or may be transported or drawn upon a highway, excepting devices moved by human power or used exclusively upon rails or tracts.
VEHICLE CONFIGURATION	The actual number of vehicles in the configuration, i.e., truck tractor and 3 trailers; or truck tractor and two trailers.
VEHICLE IDENTIFICATION NUMBER (VIN)	The number and letters generally assigned to a vehicle by the manufacturer for the purpose of titling and registering.

The Idaho Transportation Department (ITD) is committed to compliance with Title VI of the Civil Rights Act of 1964 and all related regulations and directives. ITD assures that no person shall on the grounds of race, color, national origin, gender, age, or disability be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any ITD service, program, or activity. The department also assures that every effort will be made to prevent discrimination through the impacts of its programs, policies, and activities on minority and low-income populations. In addition, the department will take reasonable steps to provide meaningful access to services for persons with Limited English Proficiency.
